On behalf of the Board of Trustees of the National Provident Fund, set out below is a report on the performance and activities of your Scheme for the year ended 31 March 2017. Further information on National Provident Fund's activities, and commentary on investment markets, is set out in the Review.

YOUR SCHEME

CROWN GUARANTEE

The DBP Annuitants Scheme's solvency position is set out in a table in this report. The numbers in the table show the net assets are insufficient to meet the Scheme's current and future obligations to pay pensions.

The net assets available to pay the benefits of the Scheme were exhausted in May 2009, after a provision was made for future operating expenses. However, members should not be concerned as the benefits payable by your Scheme are guaranteed by the Crown.

A call was made under the Crown guarantee in May 2009 and the first payment from the Crown, to fund the pension benefits payable by the Scheme, was received on 27 May 2009. The Crown has been meeting the cost of paying pension benefits from the Scheme as they fall due since May 2009 and continues to do so.

The Board provides information to the Crown on an annual basis on the financial position of the Scheme and the Crown has made a provision in its financial statements for the future funding of the Scheme.

INVESTMENT PERFORMANCE

The residual assets of the Scheme are invested in cash. The return achieved (before tax and operating expenses) was 2.64% compared to the benchmark index of 2.3%.

The investment return (after tax and operating expenses) earned by the Scheme for the year ended 31 March 2017 was 0.65%.

See the comparison over the page for the key statistics of your Scheme over the last 10 years. For an overview of the financial performance of the Scheme, refer to the tables on the following pages.
