

DBP Annuitants Scheme

On behalf of the Board of Trustees of the National Provident Fund, set out below is a report on the performance and activities of your Scheme for the year ended 31 March 2022. Further information on the National Provident Fund's activities, and commentary on investment markets, is set out in the Chair's letter.

Your Scheme

CROWN GUARANTEE

The DBP Annuitants Scheme is a defined benefit scheme. The benefits payable by your Scheme are guaranteed by the Crown.

The Scheme's funding position is set out in a table in this report. The numbers in the table show the net assets are insufficient to meet the Scheme's current and future obligations to pay pensions.

The net assets available to pay the benefits of the Scheme were exhausted in May 2009, after a provision was made for future operating expenses. However, members should not be concerned as the benefits payable by your Scheme are guaranteed by the Crown.

A call was made under the Crown guarantee in May 2009 and the first payment from the Crown, to fund the pension benefits payable by the Scheme, was received on 27 May 2009. The Crown has been meeting the cost of paying pension benefits from the Scheme as they fall due since May 2009 and continues to do so, after allowing for transfers from the DBP Contributors Scheme.

The Board provides information to the Crown on an annual basis on the financial position of the Scheme and the Crown has made a provision in its financial statements for the future funding of the Scheme.

Annual Report for the year ended 31 March 2022

SUMMARY FINANCIAL STATEMENTS

The summary financial statements included in this Annual Report have been extracted from the full financial statements for the year ended 31 March 2022.

The summary financial statements cannot be expected to provide as complete an understanding as the full financial statements.

Members are welcome to view the full financial statements on our website - www.npf.co.nz/members/schemes - or contact the Scheme administrator, Datacom (see details on back page), for a free copy of the Scheme's full financial statements.

DBP Annuitants Scheme

INVESTMENT PERFORMANCE

The assets of the Scheme are invested in cash and fixed interest. The asset class returns (before tax and expenses) and the comparative performance of the benchmark indices are shown in the table below.

Asset Class	Return	Index
Cash	0.63%	0.38%
Fixed interest (global)	(2.79%)	(3.70%)

The investment return (after tax and expenses) earned by the Scheme for the year ended 31 March 2022 was (1.24%) (2021: (1.18%)). In dollar terms, this represents an investment loss of \$130,000 (2021: loss of \$38,000).

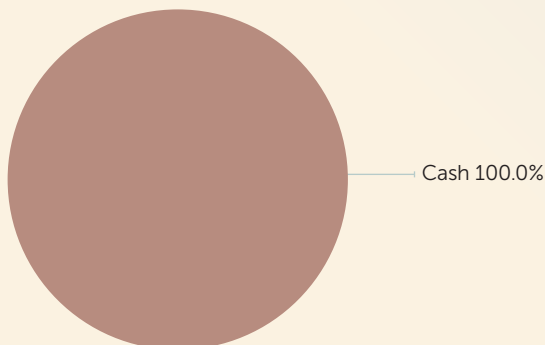

Around the world the ongoing impacts of the Covid-19 outbreak and the war in Ukraine have led to significant economic slowdown and volatility. These disruptions are likely to continue into the foreseeable future and provide uncertainty for the value of the investment assets and the income earned from them. The Board continues to monitor the impact of the movements in the market on an ongoing basis.

See the comparison over the page for the key statistics of your Scheme over the last 10 years. For an overview of the financial performance of the Scheme, refer to the tables on the following pages.

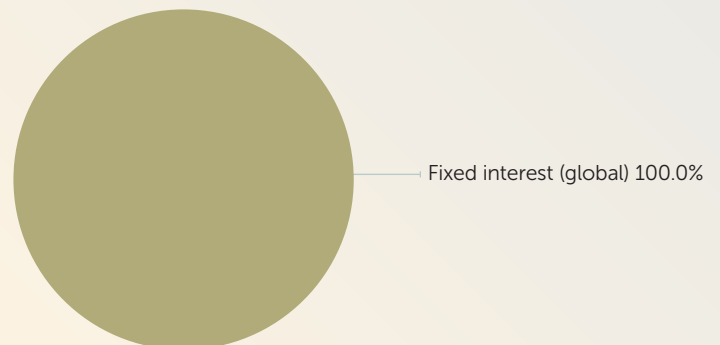

HOW YOUR MONEY IS INVESTED

The Scheme's asset allocation strategy for the residual assets held by the Scheme was reviewed by the Board in August 2021 and the Scheme's assets were reallocated from cash to fixed interest. The pie charts below show the Scheme's asset allocation strategy for the residual assets held by the Scheme since May 2009 and effective from 1 March 2022

**Asset Allocation Strategy
from May 2009**

**Asset Allocation Strategy
from 1 March 2022**

The Board's Statement of Investment Policies, Standards and Procedures (SIPSP) is reviewed regularly by the Board. During the year the responsible investment section of the SIPSP was updated. There were no other significant changes to the SIPSP during the year.

See our website, www.npf.co.nz, for more information about your Scheme, including the Board's SIPSP and the Scheme trust deed.

FUNDING POSITION

The Actuary has advised the funding level of the Scheme, as at 31 March, was:

	2022 (\$000)	2021 (\$000)
Net assets	50,298	50,193
Actuarial Liabilities	(807,785)	(852,320)
Funding level*	6.2%	5.9%

* The funding level has been calculated using the year on year risk free forward rates determined according to the methodology prescribed by the Treasury for Crown financial reporting purposes.

**DBP Annuitants Scheme (the Scheme)
Notes to the Financial Statements
for the year ended 31 March 2022**

1 DESCRIPTION OF THE SCHEME AND FUNDING ARRANGEMENTS

The Scheme is a defined benefit scheme, governed by a Trust Deed. The Scheme is deemed to be registered on the register of managed investment schemes under the Financial Markets Conduct Act 2013 (FMCA).

When a contributor or other beneficiary of the DBP Contributors Scheme becomes a member of the Scheme, assets with a market value equal to the liability of the Scheme to pay the benefit attributable to that person's membership, are transferred from the DBP Contributors Scheme to the Scheme.

The net assets available to pay the benefits of the Scheme were exhausted in May 2009, after a provision was made for future operating expenses. A call was made under the Crown guarantee and the first payment from the Crown, to fund the pension benefits payable by the Scheme, was received on 27 May 2009.

The Board of Trustees of the National Provident Fund (the Board) provides information to the Crown on the financial position of the Scheme, on a regular basis. From May 2009, the Crown is meeting the cost of paying pension benefits from the Scheme as they fall due, after allowing for transfers from the DBP Contributors Scheme.

2 RELATED PARTIES

Under the terms of the National Provident Fund Restructuring Act 1990 (the Act), the Board is Trustee of the Scheme. Members of the Board are appointed by the Minister of Finance.

The Board and the Government Superannuation Fund Authority (the Authority) have formed a joint venture company, Annuitas Management Limited (Annuitas). Each organisation has entered into a management services agreement with Annuitas. The main function of Annuitas is to provide staff who act in management and secretarial roles on behalf of the Board and the Authority. The costs of running Annuitas are shared between the Board and the Authority on an equitable basis, as agreed between the organisations.

Edward Schuck and Stephen Ward are the two Board appointed directors of Annuitas.

The Board is also the Trustee of the Global Asset Trust (the GAT), which holds the assets of all the National Provident Fund Schemes. The GAT is divided into separate unit funds, representing various asset classes, which have issued units to the Board, as Trustee of the Scheme, according to the Strategic Asset Allocation Strategy (refer note 3).

There were no transactions between the Board or management, as individuals, and the Scheme.

3 STRATEGIC ASSET ALLOCATION (SAA) - INVESTMENT

The Scheme is authorised to invest in the GAT or in bank deposits. The GAT is divided into separate unit funds representing various asset classes.

Investment assets have been designated at fair value through profit or loss upon initial recognition. These are managed and their performance evaluated, on a fair value basis. This is consistent with the Scheme's documented investment strategy. The assets are investments in units in the GAT which, in turn, invest in fixed interest and debt instruments.

**DBP Annuitants Scheme (the Scheme)
Notes to the Financial Statements
for the year ended 31 March 2022**

3 STRATEGIC ASSET ALLOCATION (SAA) – INVESTMENT (CONTINUED)

The fair value of the units held by the Scheme in the GAT is based on the valuation of the financial instruments held by the GAT. The fair value of these financial instruments is based on exit prices at balance date without any deduction for future selling costs. If the exit price for an instrument is not available on a recognised exchange the fair value is estimated taking into account comparable markets and specialist advice.

The benchmark asset allocations as at 31 March 2022 and 31 March 2021 are shown below.

	2022 (\$000)	2021 (\$000)
Cash unit fund	-	100.0
Fixed Interest unit fund	100.0	-

As discussed in note 1, the net assets available to pay the benefits of the Scheme were exhausted in May 2009, after a provision was made for future operating expenses. The provision is invested in the Cash unit fund of the GAT. From May 2009 the income from the provision is used to meet the operating expenses of the Scheme and the Crown is meeting the cost of paying pension benefits from the Scheme as they fall due, after allowing for transfers from the DBP Contributors Scheme.

4 INCOME FROM UNIT FUNDS

Income from unit funds was derived from the changes in fair value of units held by the GAT and reflects both realised and unrealised gains and losses. The income stated is net of expenses (including investment management and custodial fees) directly related to investment activities.

	2022 (\$000)	2021 (\$000)
Cash unit fund	155	(60)
Fixed Interest unit fund	(345)	-
Loss from unit funds*	(190)	(60)

* The income from unit funds is received tax paid.

5 MANAGEMENT AND BOARD MEMBER EXPENSES

Management expenses comprise administration fees charged by Datacom Connect Limited, and a share of the expenses of the Board. The Board member expenses are split evenly between the schemes.

DBP Annuitants Scheme (the Scheme)
Notes to the Financial Statements
for the year ended 31 March 2022

6 INCOME TAX

Income specific to the Scheme is subject to tax at 28%, after allowing for deductible expenses. The income tax reconciliation is as follows:

	2022	2021
	(\$000)	(\$000)
Scheme specific income	60	22
Deductible expenses	(669)	(645)
Expense election to the GAT under section DV 2	609	623
Taxable income	-	-
Net income before tax and membership activities	(799)	(683)
Tax at 28%	(224)	(191)
Adjusted for tax effect of:		
Non-assessable income	53	17
Income tax credit	(171)	(174)
Represented by:		
Income tax credit on current year income	(171)	(174)
Prior year adjustment	-	-
Income tax credit	(171)	(174)
Movement in deferred taxation		
Opening balance	-	167
Current year movement	-	(167)
Deferred tax asset	-	-

The current year tax credit results from the benefit of the Scheme electing to transfer surplus deductible expenses to the GAT under section DV 2 of the Income Tax Act 2007 (the Tax Act). The GAT is subject to tax at the rate of 28%.

7 RECEIVABLE FROM THE GAT

This receivable represents the outstanding tax credits, (refer note 6), utilised by the GAT, resulting from the transfer of the Scheme's surplus deductible expenses to the GAT under the Tax Act. The Scheme will realise the receivable by investing in unit funds of the GAT, with the remainder being settled by cash (if applicable).

DBP Annuitants Scheme (the Scheme)
Notes to the Financial Statements
for the year ended 31 March 2022

8 OTHER RECEIVABLES

Other receivables consist of:

	2022 (\$000)	2021 (\$000)
Amounts due from members	20	40
Management fee refund	8	18
Total other receivables	28	58

9 RECONCILIATION OF INCREASE/(DECREASE) IN NET ASSETS FOR THE YEAR TO NET CASH FLOWS USED IN OPERATING ACTIVITIES

	2022 (\$000)	2021 (\$000)
Change in net assets for the year	105	14,417
Movement in working capital		
Change in accounts payable	2	(1)
Change in other receivables	30	34
	32	33
Less non-cash items		
Movement in receivable from the GAT	170	(341)
Movement in deferred tax	-	167
	170	(174)
Items classified as investing activities		
Loss from unit funds	190	60
	190	60
Net cash flows used in operating activities	497	14,336

10 GUARANTEED BENEFITS

Under section 60 of the Act, the benefits payable by the Scheme are guaranteed by the Crown.

As discussed in note 1, the net assets available to pay benefits of the Scheme were exhausted in May 2009 after a provision was made for future operating expenses. A first call was made under the Crown guarantee in May 2009 to meet Scheme pension benefit payments. From May 2009, the Crown is meeting the cost of paying pension benefits from the Scheme as they fall due, after allowing for transfers from the DBP Contributors Scheme.

**DBP Annuitants Scheme (the Scheme)
Notes to the Financial Statements
for the year ended 31 March 2022**

11 ACTUARIAL EXAMINATION AND REVIEW, FUNDING LEVEL AND VESTED BENEFITS RATIO – 31 MARCH 2022

11.1 ACTUARIAL EXAMINATION AND REVIEW

Every three years, a statutory actuarial examination of the Scheme is prepared in accordance with the National Provident Fund Restructuring Act 1990 and the Financial Markets Conduct Act 2013 (refer note 12). The most recent actuarial examination was conducted as at 31 March 2021. In addition, an actuarial review of the Scheme is undertaken annually.

The results of the most recent actuarial examination of the Scheme, as at 31 March 2022, are set out below for the funding level and vested benefits ratio.

11.2 FUNDING LEVEL AND VESTED BENEFITS RATIO – 31 MARCH 2022

The funding level of the Scheme is the ratio of the net assets available to pay benefits to the value of the total liabilities. For this Scheme, the value of the vested benefits is equal to the value of the liabilities. The funding level and vested benefits calculated by the Actuary, as at 31 March, are shown below:

Valuation date	2022 (\$000)	2021 (\$000)
Present value of -		
Liabilities/vested benefits	(807,785)	(852,320)
Net assets	50,298	50,193
(Deficit)	(757,487)	(802,127)
Funding level ratio	6.2%	5.9%

This table should be read in conjunction with note 10.

The most financially significant assumptions are:

- The difference between the discount rates and the rate of future pension increases. The discount rates used are the year-on-year risk-free forward rates. These were determined according to the methodology prescribed by the Treasury for Crown financial reporting. Pensions are assumed to increase at the Consumers Price Index inflation rate.
- The pensioner mortality assumptions, which are based on the results of a recent pensioners' mortality investigation and include an allowance for improving mortality.

**DBP Annuitants Scheme (the Scheme)
Notes to the Financial Statements
for the year ended 31 March 2022**

12 STATUTORY ACTUARIAL EXAMINATION – 31 MARCH 2021

Under the National Provident Fund Restructuring Act 1990 (the Act) and the Financial Markets Conduct Act 2013, a statutory actuarial examination of the Scheme is required every three years.

The most recent statutory actuarial examination was prepared, as at 31 March 2021, by Christine Ormrod FNZSA, the Actuary to the Scheme, and is dated 28 July 2021. It covers the three years 31 March 2018 to 31 March 2021.

The following table shows the summary results of the valuation:

Valuation date	2021 (\$000)	2018 (\$000)
Present value of -		
Future pension payments	(819,320)	(873,690)
Future administration expenses	(33,000)	(33,000)
Total liabilities	(852,320)	(906,690)
Net assets	50,193	35,938
(Deficit)	(802,127)	(870,752)
Funding level	5.9%	4.0%

This table should be read in conjunction with note 10.

The ratio of the net assets to the value of total liabilities is known as the funding level. A funding level of 100% indicates a balance between the net assets and liabilities of the Scheme at the date of valuation. The funding level of the Scheme at 31 March 2021, was 5.9%. This shows that the Scheme had significantly less net assets than liabilities at that date. Under section 60 of the Act, the benefits payable by the Scheme are guaranteed by the Crown.

For this Scheme, the value of vested benefits is equal to the value of the total liabilities and hence the ratio of the net assets to the value of vested benefits is the same as the funding level, i.e. 5.9% as at 31 March 2021.

At the valuation date, the Scheme only held assets to provide for the future costs of administering the Scheme, with the cost of pension payments being met predominantly by the Crown as they fall due. Therefore, no significant change in the funding level or ratio of assets to the value of vested benefits was expected prior to the next actuarial examination.

The most significant actuarial assumptions used by the Actuary were:

- The difference between the discount rates and the rate of future pension increases. The discount rates used are year-on-year risk-free forward rates. Pensions are assumed to increase at the Consumers Price Index inflation rate. Both were determined according to the methodology prescribed by the Treasury for Crown financial reporting.
- The pensioner mortality assumptions which were based on the results of the pensioners' mortality investigation in 2020 and include an allowance for improving mortality.

The Actuary did not express an opinion on the financial condition of the Scheme.

**DBP Annuitants Scheme (the Scheme)
Notes to the Financial Statements
for the year ended 31 March 2022**

12 STATUTORY ACTUARIAL EXAMINATION – 31 MARCH 2021 (CONTINUED)

RECOMMENDATIONS

The Actuary recommended:

- The next statutory actuarial examination be carried out as at 31 March 2024.
- The Board does not grant any benefit increases, other than the normal pension increase entitlements of pensioners.

The Board accepted the recommendations of the Actuary.

The value of the liabilities will continue to be calculated as at each 31 March for the Scheme's financial statements and as at 30 June for the Crown financial reporting purposes.

13 FINANCIAL RISK MANAGEMENT

The Scheme invests in units of the GAT based on the SAA determined for the Scheme (see note 3). The unit fund holds fixed interest and debt instruments. These instruments are all measured at fair value.

Under *NZ IFRS 13: Fair Value Measurement* (NZ IFRS 13), disclosures for fair value instruments are required using a three-level fair value hierarchy. These tiers reflect the availability of observable market inputs. The scheme's investment in units of the GAT is classified as a level 2 investment as the unit prices are based on a net asset valuation derived from either quoted prices for similar assets or unquoted but observable inputs.

The Scheme's major risk in relation to its investment in the GAT is the price risk that the value of its units may fluctuate. Other risks, such as market risk (currency risk, interest rate risk and other price risk), credit risk and liquidity risk, are managed in the GAT.

For more information on the disclosures under NZ IFRS 13 and the risks mentioned above reference should be made to the financial statements of the GAT. A copy of the financial statements of the GAT can be viewed on the National Provident Fund's website (www.npf.co.nz).

The Board manages the other risks by determining a diversified SAA appropriate for the provision to meet the operating expenses of the Scheme. In addition, the Board selects the investment managers, sets their mandates and monitors performance against those mandates.

The long run investment return for the Scheme is estimated to be 2.4% per annum. The volatility is expected to be +/- 2.2%. This is based on the Scheme's SAA and the long term rate of return for the cash unit fund (after investment management, custody fees and tax).

**DBP Annuitants Scheme (the Scheme)
Notes to the Financial Statements
for the year ended 31 March 2022**

14 SUBSEQUENT EVENTS

There were no material events subsequent to balance date requiring amendments to these financial statements.

15 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies have been applied consistently to all periods presented in these financial statements.

15.1 BASIS OF PREPARATION

The financial statements have been prepared under the requirements of clause 34 of the Scheme Trust Deed and in accordance with the FMCA. For a description of the Scheme and its funding arrangements see note 1.

15.2 STATEMENT OF COMPLIANCE

These financial statements comply with the New Zealand Equivalents to International Financial Reporting Standards (NZ IFRS), the International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board, and other applicable financial reporting standards as appropriate for profit-oriented entities.

15.3 MEASUREMENT BASE

The measurement base adopted is that of historical cost, except for investment assets which are stated at their fair value as set out below.

15.4 PRESENTATIONAL AND FUNCTIONAL CURRENCY

The financial statements are presented in New Zealand dollars, the Scheme's functional currency, rounded to the nearest thousand dollars (\$000).

15.5 IMPAIRMENT

Financial assets which are recorded at amortised cost are reviewed at each financial statement date to determine whether there is objective evidence of impairment.

15.6 CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

In compliance with NZ IFRS, preparation of the financial statements requires judgements, estimates and assumptions to be made that affect the application of policies and the reported amounts of assets, liabilities, income and expenses.

Judgement has been applied in the classification and measurement of financial assets. This policy has a significant impact on the amounts disclosed in the financial statements.

**DBP Annuitants Scheme (the Scheme)
Notes to the Financial Statements
for the year ended 31 March 2022**

15 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

15.6 CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (CONTINUED)

There are no material assumptions or major sources of estimation uncertainty that have a significant risk of causing material adjustments to the carrying amounts of scheme assets at year end. Investment asset values are subject to variation due to market fluctuations. Receivables have been valued in accordance with NZ IFRS 9. Under this standard the scheme has adopted the simplified expected credit loss model.

The estimates and associated assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised, if the revision affects only that period; or in the period of the revision and future periods, if the revision affects both current and future periods.

15.7 STANDARDS ISSUED BUT NOT EFFECTIVE

Certain new accounting standards and interpretations have been issued that are not mandatory for 31 March 2022 reporting periods and have not been adopted early by the Board. None of these standards are likely to have a material impact on the Scheme when they are adopted. All standards will be adopted in the period in which they become mandatory.

15.8 FINANCIAL INSTRUMENTS

Financial instruments include both financial assets and financial liabilities.

Financial assets include balances due from contributors, and receivables from related parties (if applicable).

Financial liabilities, measured at amortised cost, include accounts payable and bank overdrafts (if applicable).

15.9 RECOGNITION

The Scheme recognises financial assets and financial liabilities on the date the Scheme becomes a contractual party to the financial instruments.

15.10 MEASUREMENT

Financial assets that are classified at fair value through profit or loss are measured at fair value where all resulting gains or losses are recorded in the Statement of Changes in Net Assets.

Financial assets, classified as other receivables, and other financial liabilities are recorded at amortised cost using the effective interest rate method, less any impairment losses. The effective interest rate is the rate that exactly discounts estimated future cash flows through the expected life of the financial instrument to the net carrying amount of the financial asset or liability.

**DBP Annuitants Scheme (the Scheme)
Notes to the Financial Statements
for the year ended 31 March 2022**

15 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

15.11 DERECOGNITION

The Scheme derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or the Scheme transfers the financial asset and the transfer qualifies for derecognition. A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

15.12 CASH AND CASH EQUIVALENTS

Cash comprises current deposits with banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash, where there is an insignificant risk of change in value. Cash equivalents are held for the purpose of meeting short-term cash commitments.

15.13 INVESTMENT INCOME RECOGNITION

Interest income is recognised using the effective interest rate of the instrument. Changes in the fair value on GAT unit funds are recognised in the Statement of Changes in Net Assets. Interest income on financial assets classified at fair value through profit or loss, is accrued at balance date.

15.14 TRANSFERS FROM DBP CONTRIBUTORS SCHEME

Transfers are accounted for on a due and receivable basis.

15.15 EXPENSES

All expenses are recognised in the Statement of Changes in Net Assets on an accrual basis.

15.16 TAXATION

Income arising from the movement in the fair value of the Cash unit fund of the GAT is received by the Scheme tax paid. The Scheme's deductible operating expenses are offset against the Scheme's interest received to result in nil assessable income. Any surplus deductible operating expenses are transferred to the GAT under the Tax Act (refer notes 6 and 7).

16 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

There have been no material changes to accounting policies during the year.

**DBP Annuitants Scheme (the Scheme)
Trustee's Report
for the year ended 31 March 2022**

17 OTHER INFORMATION

The Board, as Trustee of the Scheme, provides members with the following information:

17.1 SCHEME MEMBERSHIP

Changes in the Scheme membership numbers during the year were as follows:

	Pensioners
Opening membership as at 1 April 2021	4,194
Transfers	18
Pensioner change of beneficiary	79
Deaths	(294)
Closing membership as at 31 March 2022	<u>3,997</u>

17.2 CONTRIBUTIONS RECEIVED AND BENEFITS PAID

Under the terms of the Scheme Trust Deed, contributions are not required to be made to the Scheme.

The Board certifies that, to the best of its knowledge, all benefits required to be paid from the Scheme were paid in accordance with the terms of the Scheme Trust Deed.

17.3 VESTED BENEFITS

The Board, based on the advice of the Actuary, certifies that the net market value of the Scheme's assets was less than the total value of the vested benefits of the Scheme, as at 31 March 2022 (refer note 11 to the financial statements).

17.4 TRUST DEED

The Scheme Trust Deed has not been amended since 24 June 2021, being the date of the Scheme's last annual report.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF DBP ANNUITANTS SCHEME

The Auditor-General is the auditor of DBP Annuitants Scheme (the Scheme). The Auditor-General has appointed me, Silvio Bruinsma, using the staff and resources of Deloitte Limited, to carry out the audit of the financial statements of the Scheme on his behalf.

Opinion

We have audited the financial statements of the Scheme on pages 1 to 13, that comprise the Statement of Net Assets as at 31 March 2022, the Statement of Changes in Net Assets and Statement of Cash Flows for the year ended on that date and the notes to the financial statements that include accounting policies and other explanatory information.

In our opinion the financial statements of the Scheme on pages 1 to 13:

- present fairly, in all material respects:
 - its net assets as at 31 March 2022 and
 - its financial performance and cash flows for the year then ended; and
- comply with generally accepted accounting practice in New Zealand in accordance with New Zealand Equivalents to International Financial Reporting Standards (NZ IFRS) and International Financial Reporting Standards (IFRS).

Our audit was completed on 28 June 2022. This is the date at which our opinion is expressed.

The basis for our opinion is explained below. In addition, we outline the responsibilities of the Board of Trustees and our responsibilities relating to the financial statements, we comment on other information, and we explain our independence.

Basis for our opinion

We carried out our audit in accordance with the Auditor-General's Auditing Standards, which incorporate the Professional and Ethical Standards and the International Standards on Auditing (New Zealand) issued by the New Zealand Auditing and Assurance Standards Board. Our responsibilities under those standards are further described in the Responsibilities of the auditor section of our report.

We have fulfilled our responsibilities in accordance with the Auditor-General's Auditing Standards.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significant in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in informing our audit opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter

How our audit addressed the key audit matter

Actuarial deficit and triennial valuation of the promised retirement liabilities (Note 11 and 12)

In accordance with the Section 68(1) of the National Provident Fund Restructuring Act 1990 (the Act), the Board of Trustees of the National Provident Fund is required to obtain an actuarial valuation of the estimated promised retirement liabilities as at dates that are no more than three years apart (the “triennial valuation”).

On 28 July 2021, the Scheme obtained a triennial valuation as at 31 March 2021 which estimated liabilities of \$852.3million, net assets of \$50.1million and determined a deficit of \$802.2million.

On 2 June 2022, the Scheme obtained an interim update letter as at 31 March 2022 from its actuary which showed vested benefits of \$807.8million. This compared to the net assets of \$50.3 million resulting in a Scheme an actuarial deficit of \$757.5 million.

The interim update letter uses the triennial valuation as a base and certain assumptions were updated with available latest information.

The triennial valuation and interim update letter is inherently subjective and is affected by use of assumptions such as:

- The rate of future pension increases;
- Future investment returns;
- The discount rate; and
- Post-retirement mortality of the members.

As noted in Note 12, under section 60 of the Act, the benefits payable by the Scheme are guaranteed by the Crown.

We have included the actuarial deficit and triennial valuation of the promised retirement liabilities as a key audit matter due to the significance of the disclosures to the financial statements and the subjectivity of the assumptions inherent in estimating the amount.

Our audit procedures included the following:

- Testing the underlying data provided to the actuary and confirming that these agree to underlying records;
- Evaluating the competence and objectivity and relevant experience of the Scheme’s actuary;
- Engaging our internal actuarial specialist to independently understand, challenge and evaluate:
 - The work and findings of the Scheme’s actuary;
 - The actuarial methods and assumptions employed, specifically, the rate of future pension increases, future investment returns, the discount rate and post-retirement mortality of the members.
- Evaluating the related disclosures about the Scheme’s vested benefits and promised retirement liabilities, and the risks attached to them which is included in Note 11 and 12 to the Scheme’s financial statements.
- Assessing the related disclosures concerning the Scheme’s vested benefits deficit and any plan by the Crown to fund benefit payments as they fall due.

Responsibilities of the Board of Trustees for the financial statements

The Board of Trustees is responsible on behalf of the Scheme for preparing financial statements that are fairly presented and that comply with generally accepted accounting practice in New Zealand.

The Board of Trustees is responsible for such internal control as it determines is necessary to enable it to prepare financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Trustees is responsible on behalf of the Scheme for assessing the Scheme's ability to continue as a going concern. The Board of Trustees are also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless the Board of Trustees intends to wind-up the Scheme or to cease operations, or have no realistic alternative but to do so.

The Board of Trustees' responsibilities arise from the Financial Markets Conduct Act 2013 and clause 34 of the Scheme's Trust Deed.

Responsibilities of the auditor for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit carried out in accordance with the Auditor-General's Auditing Standards will always detect a material misstatement when it exists. Misstatements are differences or omissions of amounts or disclosures, and can arise from fraud or error. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of members, taken on the basis of these financial statements.

We did not evaluate the security and controls over the electronic publication of the financial statements.

As part of an audit in accordance with the Auditor-General's Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. Also:

- We identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- We obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Scheme's internal control.
- We evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Trustees.
- We conclude on the appropriateness of the use of the going concern basis of accounting by the Board of Trustees and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Scheme's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion.

Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Scheme to cease to continue as a going concern.

- We evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Trustees regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Our responsibilities arise from the Public Audit Act 2001.

Other information

The Board of Trustees is responsible for the other information. The other information comprises the information included on pages 14 to 15 but does not include the financial statements, and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of audit opinion or assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information. In doing so, we consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on our work, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Independence

We are independent of the Scheme in accordance with the independence requirements of the Auditor-General's Auditing Standards, which incorporate the independence requirements of Professional and Ethical Standard 1: *International Code of Ethics for Assurance Practitioners* issued by the New Zealand Auditing and Assurance Standards Board.

Other than the audit, we have no relationship with, or interests in, the Scheme.
