### **INVESTMENT PERFORMANCE CONTINUED**

Around the world the ongoing impacts of the Covid-19 pandemic, central banks' response to address rising inflation and heightened geo-political instability, most noticeably evident in the ongoing conflict in Ukraine, have led to a significant economic slowdown and financial market volatility. The impact of these factors is likely to continue into the foreseeable future with flow on impact on the returns from the Scheme's investments. The Board continues to monitor the impact of the movements in the market, and the implication for investment strategy, on an ongoing basis.

See the comparison over the page for the key statistics of your Scheme over the last 10 years. For an overview of the financial performance of the Scheme, refer to the tables on the following pages.

#### **FUNDING POSITION**

A summary of the funding level of the Scheme, as at 31 March, was:

	2023 (\$000)	2022 (\$000)
Net assets	370,588	397,412
Actuarial liabilities	(343,905)	(362,266)
Funding level*	107.8%	109.7%

<sup>\*</sup> The funding levels at 31 March 2023 and 31 March 2022, in the table above, have been calculated on the funding basis using discount rates, which are the Sovereign bond yields, adjusted for tax and investment expenses.

#### PENSIONS INCREASE

The Board has a financial management framework for the Scheme. In developing the framework, the Board considered the investment strategies that should be pursued depending on the funding level of the Scheme along with the Minimum Funding Level above which consideration will be given by the Board to granting pension increases. In setting the Minimum Funding Level at 108%, the Board acknowledged there will be years when the funding level of the Scheme is below the target and there is insufficient surplus to provide for a pension increase.

On 19 June 2023 the Board resolved that no pension increase will be given for the year ended 31 March 2023.

The allocation of 80% to fixed interest was transitioned to duration matched New Zealand fixed interest by way of investment in the Fixed Interest No. 2 Unit Fund. The transition was completed on 1 May 2022. In addition, during the year, the Board has applied its Dynamic Asset Allocation (DAA) tilting programme as outlined in the Statement of Investment Policies, Standards and Procedures (SIPSP).

#### OPINION

The summary financial statements of the Scheme that comprise the summary statement of net assets as at 31 March 2023, the summary statement of changes in net assets, and the summary statement of cash flows for the year ended on that date, and related notes, are derived from the full financial statements for the year ended 31 March 2023 that we have audited.
